2. Teacher Demographics and Status

A total of 104 teachers are registered in the system. The demographic breakdown highlights a predominantly male teaching staff, and a strong active status retention rate among educators.

By Gender

- **Male (M):** 82 (78.8%)
- **Female (F):** 22 (21.2%)

By Employment Status

- **Active:** 87 (83.7%)
- **Inactive:** 17 (16.3%)

3. Student Statistics (Sample Analysis)

The provided student data contains exactly 365 sample records. The students are distributed across grades ranging from Grade 7 through Grade 12, as well as Bachelor-level programs.

Grade and Academic Year Mapping

- The vast majority of **Active** students are registered for the academic years **2025** and **2026**.
- **Graduated** students generally fall into the academic years ranging from **2020** to **2025**.
- The dataset captures students from early secondary (Grades 7-9) through higher secondary (Grades 11-12).

Status Categories

Students are broadly classified into two primary categories indicating their current academic standing:

- **Active:** Students currently enrolled and attending classes.
- **Graduated:** Students who have successfully completed their grade levels (frequently observed in Grade 10, Grade 12, and Bachelor records).

Conclusion

The database reflects an actively growing educational network, with most physical schools registered or established in the system between 2021 and 2026. The high proportion of active teachers (83.7%) indicates stable operational capacity across districts like Gorkha, Mustang, Morang, and Khotang. The student sample indicates a healthy mix of boys and girls actively participating in secondary education.
