

CLEC PROJECT IMPACT REPORT

Digital Literacy & AI Integration Workshop

1. Introduction

The CLEC Project aims to enhance the digital capabilities of educators through targeted training programs. This impact assessment report evaluates the upcoming “Digital Literacy & AI Integration Workshop”, a 2-credit course scheduled from November 1, 2026, to November 5, 2026. The initiative is designed to address the growing need for advanced technological integration in educational institutions.

2. Objectives

- To assess the participation demographics for the Digital Literacy & AI Integration Workshop.
- To provide a geographical overview of the participating institutions.
- To quantify the expected impact of the training on the educational ecosystem across various districts.

3. Methodology

This report is based on the registration data for the workshop. Quantitative analysis was performed on the participant database, evaluating the spread of participants across schools and regions. The dataset includes participant names, school affiliations, and contact information strictly sourced from the project database.

4. Geographical Overview

The participants for the upcoming workshop represent a diverse geographical spread, indicating a wide-reaching impact of the CLEC Project.

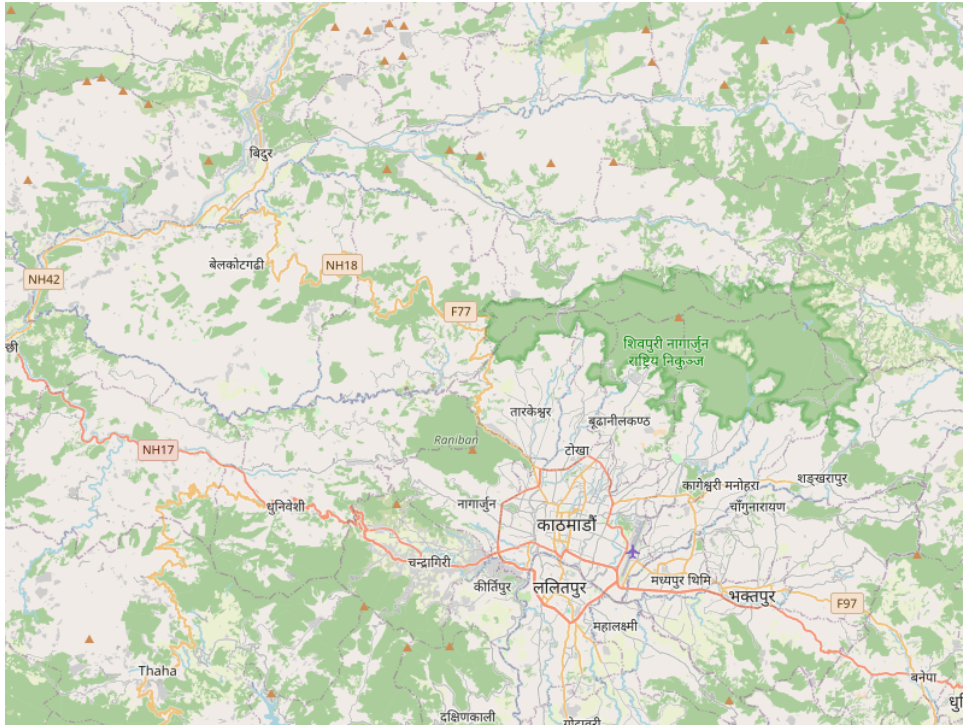

Figure 1: Geographical Distribution of Workshop Participants

The training encompasses educators from institutions such as Gorkha Public School, Shree Prakash Jyoti Secondary School, Biratnagar High, Triyuga Secondary School, and Sotang CLEC.

5. Key Findings

- A total of 5 educators have enrolled in the Digital Literacy & AI Integration Workshop.
- The workshop is designated as a 2-credit course.
- Participating schools span multiple locations, demonstrating a broad geographical reach for the initiative.

6. Quantitative Analysis

The quantitative metrics highlight the scale of the upcoming workshop.

Participant Name	School Name	Email ID
Ram Bahadur	Gorkha Public School	ram@example.com
Gopal Shrestha	Shree Prakash Jyoti Secondary School	gopal@example.com
Hari Khadka	Biratnagar High	hari@example.com
Geeta Sharma	Triyuga Secondary School	geeta@example.com
Sita Thapa	Sotang CLEC	sita@example.com

Table 1: Registered Participants for the Workshop

Summary Statistics:

Total Participants: 5

Course Credits: 2

Duration: Nov 1, 2026 - Nov 5, 2026

7. Qualitative Feedback

As the Digital Literacy & AI Integration Workshop is scheduled for November 2026, qualitative feedback from participants has not yet been collected. Future impact reports will include post-training assessments, participant testimonials, and evaluations of practical AI integration in their respective classrooms.

8. Conclusion

The registration data for the “Digital Literacy & AI Integration Workshop” demonstrates a strong initial interest from various educational institutions. The diverse participation base indicates that the CLEC Project is well-positioned to make a significant impact on digital literacy and AI integration in the region. Upon completion of the workshop, a follow-up assessment will be conducted to measure the practical outcomes and overall effectiveness of the training.
